PROFILE

Motivated software engineer with a strong foundation in coding and software development. Passionate about contributing to Agile teams and developing scalable, innovative solutions to tackle complex challenges. Career aspiration includes contributing to impactful projects and advancing skills in embedded systems and software design.

PROFESSIONAL EXPERIENCE

● November 2024 - February 2025

Intern

New Ventures, Tirana, Albania

- Participated in real-life projects, collaborating with a team to develop and enhance software solutions
- Gained hands-on experience using **Java** with **Quarkus** for creating efficient and scalable applications.
- Worked with **PostgreSQL**, designing and managing databases for project implementation. Contributed to the full software development lifecycle, including development, testing, and debugging.

● April - June 2024

Intern

CCS Sh.p.k, Tirana, Albania

Supported staff members in their daily tasks, reducing workload burden and allowing for increased focus on higher-priority assignments. Gained valuable experience working within network environments, applying learned CCNA concepts directly to real-world situations. Analyzed problems and worked with teams to develop solutions.

EDUCATION

● Master of Science : Electronic and Computer Engineering

April 2025 - March 2026

Anhalt University of Applied Science, Germany (Erasmus+ student)

● Master of Science : Informatics Engineering

October 2024 - June 2026

Polytechnic University of Tirana, Albania

● Bachelor of Science: Telecommunication Engineering

October 2021 - June 2024

Polytechnic University of Tirana - Tirana, Albania

Additional Courses

● 42 école

September 2025

Tirana , Albania

Mastered version control with Git.

Gained strong confidence in using the terminal and solved numerous algorithmic challenges in **C**, strengthening my problem-solving and programming skills.

● Java Full Stack Programming

November 2023 - July 2024

Software Development Academy (327 Hours) - Tirana, Albania

Proficiently completed an intensive Java Full Stack programming course, mastering a comprehensive set of skills and modules including:

Java programming skills, encompassing core fundamentals, advanced concepts, and industry standard testing methodologies.

MY SKILLS

Programming Languages

- Java (Core and Advanced)
- Python
- C
- C#
- Good knowledge of HTML,CSS
- Javascript

Framework and Libraries

- Spring Boot
- Hibernate
- Angular
- .NET

Database and Connectivity

- MySQL
- Java Database Connectivity (JDBC)
- Java Persistence API (JPA)

Web Development: RESTful

- APIs Web Services
- Development Responsive
- Design (HTML, CSS, Angular)

Version Control:

- Git (Version Control)

Software Development Practices:

- Software Testing
- Design Patterns
- Data Structures & Algorithms

SOFT SKILLS

Collaboration and Teamwork:

Teamwork and Collaboration
Cross-functional
Communication
Active Listening

Problem-Solving and Critical Thinking:

- Analytical Thinking
- Problem Solving Decision
- Creativity and Innovation

Adaptability and Time Management:

Flexibility in Changing
Environments
Time Management

LANGUAGES

Albanian

English

German

CERTIFICATIONS

- 1 Place in Informatic Olympiad in C++ language
- Math Olympiad Cangroo(participation Certificate)
- Certifications from E-twinning projects
- SDA Certificate:
