PROFILE

Motivated software engineer with a strong foundation in coding and software development. Passionate about contributing to Agile teams and developing scalable, innovative solutions to tackle complex challenges. Career aspiration includes contributing to impactful projects and advancing skills in embedded systems and software design.

PROFESSIONAL EXPERIENCE

- **May 2026 - June 202 Intership**
Facilization, Tirana, Albania
 - Developed software using **Java**.
 - Wrote SQL queries using **Oracle SQL Developer**.
 - Gained practical experience with banking systems and business processes.
- **November 2024 - February 2025 Intern**
New Ventures, Tirana, Albania
 - Participated in development, testing and debugging.
 - Developed backend features using Java (Quarkus).
 - Designed and managed **PostgreSQL** databases.
 - Collaborated on real-world software projects.
- **Apil - June 2024 Intern**
CCS Sh.p.k, Tirana, Albania
 - Assisted with troubleshooting and system maintenance.
 - Applied CCNA concepts.
 - Supported network administration tasks.

EDUCATION

- **Master of Science (One-Year Specialization) Electronic and Computer Engineering**
April 2025 - March2026
Anhalt University of Applied Science , Germany
- **Master of Science Informatics Engineering**
October 2024 - June 2026
Polytechnic University of Tirana, Albania
- **Bachelor of Science Telecommunication Engineering**
October 2021 - June 2024
Polytechnic University of Tirana - Tirana, Albania

Additional Courses

- Deep Dive into Blockchain

July 2026

Tirana , Albania

Explored blockchain architecture, consensus mechanisms, tokenomics, and real-world blockchain use cases. Studied blockchain platforms including Hedera and Cardano, with a focus on technical implementation and economic applications.
- 42 école

September 2025 - Present

Tirana , Albania

Mastered version control with Git. Gained strong confidence in using the terminal and solved numerous algorithmic challenges in **C**, strengthening my problem-solving and programming skills.
- Java Full Stack Programming

November 2023 - July 2024

Software Development Academy (327 Hours) - Tirana, Albania

Proficiently completed an intensive Java Full Stack programming course, mastering a comprehensive set of skills and modules including:
Java programming skills, encompassing core fundamentals, advanced concepts, and industry standard testing methodologies.

MY SKILLS

Programming Languages - Java (Core and Advanced) - Python - C - C# - Good knowledge of HTML,CSS - Javascript Web Development: RESTful - APIs Web Services - Development Responsive - Design (HTML, CSS, Angular)	Framework and Libraries - Spring Boot - Hibernate - Angular .NET Version Control: - Git (Version Control)	Database and Connectivity - MySQL - Java Database Connectivity (JDBC) - Java Persistence API (JPA) Software Development Practices: - Software Testing - Design Patterns - Data Structures & Algorithms
--	---	--

SOFT SKILLS

Collaboration and Teamwork: - Teamwork and Collaboration - Cross-functional Communication - Active Listening	Problem-Solving and Critical Thinking: - Analytical Thinking - Problem Solving Decision - Creativity and Innovation	Adaptability and Time Management: - Flexibility in Changing Environments - Time Management
---	--	---

LANGUAGES

Albanian 100%	English 90%	German 80%
---	---	--

CERTIFICATIONS

- 1 Place in Informatic Olympiad in C++ language
- Certifications from E-twinning projects
- SDA Certificate:
<https://app.diplomasafe.com/en-US/diploma/d1a751600d538a8b4be2230e0677b4052cbc12a01>
- Deep Dive into Blockchain Summer School, University of Zurich
